City Guide: Miami

A critical look at the old and new in an ever-evolving Magic City.

By *Galena Mosovich*

Miami's forward momentum is astonishing. The rate at which change occurs is faster than the speed of Maserati coupes racing across the MacArthur Causeway, a picturesque highway that connects Miami proper to Miami Beach over a glistening bay. It is, and always has been, a glamorous destination. Visitors come looking for an escape, willing to be seduced by the charm of their surroundings. It's as if the environment is systematically manufactured to excite all of our senses.

Miami grew exponentially during a series of booms in the 20th century—until each period's bubble burst. Now, the city has expanded once again and is truly in the best shape it's ever been. The indicator? Countless cranes crowding the skyline both near the water and inland making way for the next chic cocktail bar or chef-driven restaurant. That "out with the old, in with the new" mentality governs the lives of those who live here, and as such, Miamians are an adaptable bunch with a strong affinity for the ambitious and adventurous. Recently, though, understanding the past has become more of a priority, as more and more people call Miami a permanent home instead of a fantasy getaway.

Here are the most important places to see, eat, and stay in this ever-evolving Magic City.

WHERE TO DRINK

The Broken Shaker and 27 Restaurant

Tucked away from the synthetic scene that consumes most of South Beach is the Freehand Miami compound, a large plot of lush tropical land where a high-end hostel in a charming Art Deco building is supplemented by a world-famous cocktail bar and new restaurant. The Broken Shaker by Gabriel Orta and Elad Zvi has made headlines since it opened as a pop-up more than two years ago in a petite space resembling the wild offspring of Paris, New Orleans, and Oaxaca. The cocktail menu changes every 10 days and contains exotic options like an aperitivo with Cocchi Americano, Amontillado sherry, fresh hibiscus, and lime juice topped with sparkling water. When you visit you'll quickly learn that all the buzz is well-deserved, thanks to fresh ingredients from an on-site garden; inventive original recipes made by down-to-earth bartenders; a back bar stocked with notable spirits, vintage liqueurs; and myriad bottles of house-made bitters, elixirs, tinctures, and syrups. The outdoor courtyard is something of a bohemian playground complete with a pool, citrus trees, ping-pong tables, and ample space for lingering into the wee hours of the night by candlelight. The adjacent restaurant, aptly named **27**, is managed by the same power duo and the bar on the second floor of this old Florida house is a top-notch addition to Miami's cocktail circuit.
